# LEADERBOARDS

Tapping **World Scores** on the main menu gives you access to the global leaderboards, letting you know where you stack up against your friends and your current global ranking for each of the available topics.

# SETTINGS

- ⑰ The sounds toggle gives you the option to immerse yourself in a quiz-show environment or focus in peace and silence.
- ⑱ The difficulty selection lets you select from 3 difficulties to best suit your needs.

## ROOKIE

A good start for beginners to learn chemistry in a slow and relaxing manner.

## ADVANCED

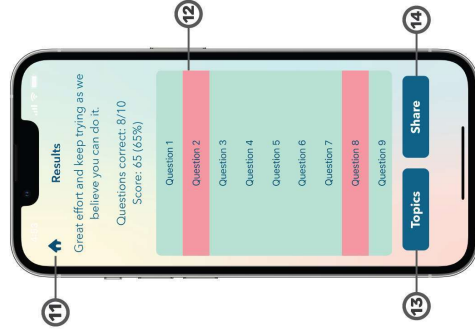

For chemistry VETERANS! It is time to apply the chemistry knowledge in a more challenging scenario!

## GENIUS

The ULTIMATE TEST! Answer the questions in the shortest time to score the highest points!

# RESULTS & FEEDBACK

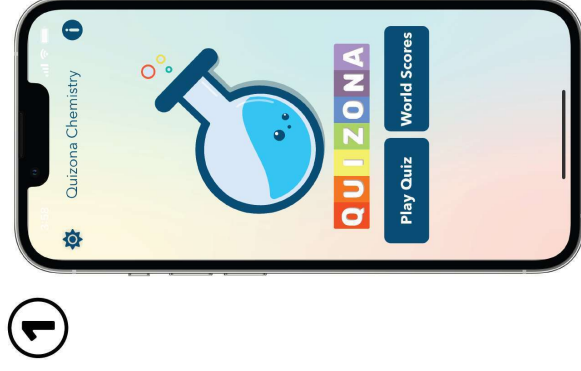

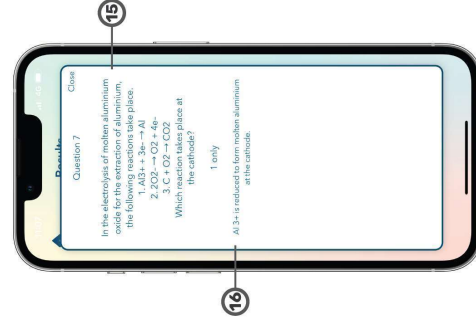

- 11 Press the  button to go back to the main menu after an exciting round of chemistry!
- 12 Questions answered correctly and incorrectly are highlighted in green & red respectively.
- 13 The **Topics** button brings you back to topic selection for more chemistry fun!
- 14 The **Share** button brings up a range of sharing options, letting you show off your score to your friends.

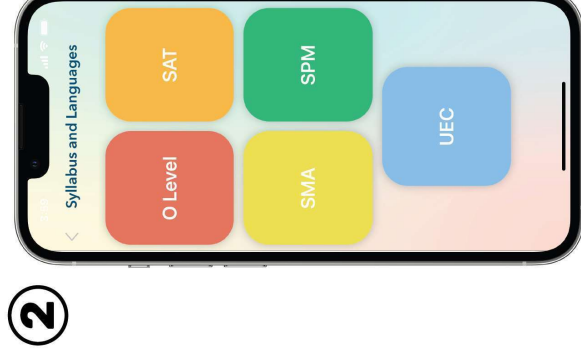

Tapping on a question from 12 brings up the full question and the correct answer assisting you in learning from your mistakes.

15 The full question is always given, so that the questions that was answered would always be known.

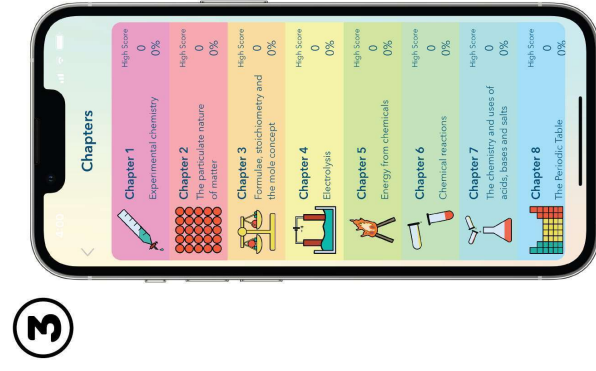

16 An explanation is always given for the correct answers to eliminate the need for any guess work.
